

POOL GUIDELINES

The following guidelines have been created to provide a comfortable and safe pool experience for both you and our other guests. Please see one of our Front Desk Agents if you have any questions.

- A maximum capacity of 10 people are allowed in the pool room at a time.
- Pool hours are 8:00 am-8:00 pm every day.
- In order to gain access to the pool area, you must sign up for a time slot at the Front Desk. No one is allowed into the pool area without signing up for a specific time slot. Time slots are 45 minutes long, beginning at the top of each hour. The remaining 15 minutes of each hour are to allow for cleaning/sanitizing of the pool area.
- Time slots are available on a first come/first serve basis. No advanced registrations will be accepted prior to check in.
- All guests must have a wristband provided by the Front Desk to gain access to the pool area, regardless of age. Even if you do not plan to get in the water, you still need a wristband to gain access to the pool area. NO PERSON without a wristband is allowed into the pool area, no exceptions.
- Each room is allowed 2 wristbands per bed for access to the pool per stay. NO exceptions. If a wristband gets damaged, you must present the damaged one to the Front Desk to exchange it for a new one. Lost wristbands will not be replaced.
- A member of our staff will be at the pool area at the top of each hour to check wristbands, verify name/room number, and to give access to the pool area. No room keys will give access to the pool area.
- No food or drinks are allowed in the pool room (except water).
- All children 16 or younger must be accompanied by an adult at all times.

Any person that does not follow the above terms and conditions will be removed from the hotel without receiving a refund.
