

# KEEPING YOU SAFE

We've revised our operations procedures, from check-in to check out - the full shebang - and have introduced new ways of keeping you, our guests, and our employees safe during these times.

## Social Distancing

Please stay 2m/6ft apart. Check-in will be contactless and we ask you to take the stairs where possible.

## Protective Screens

We've installed plastic screens at our reception and bar areas to help protect our teams.

## Sanitising Stations

Hand sanitiser stations are available at the hotel entrances to encourage use before check-in.

## Cleaning

Public seating areas will be closed off. Key touch points will be sanitised regularly (card machines, door handles etc).

## Food & Drink

Breakfast will be served as a grab & go option and dinner can be ordered/eaten in your room. Drinks can be ordered at the bar and taken to your room to enjoy.
