About Sunjivva

We believe that our name reflects our philosophy and deep connection to the natural world. The words come from “Sun”, which is a source of natural healing, symbolized of light and often associated with life, warmth and energy. It represents a positive, welcoming environment at the spa where the guest feels uplifted. And the word of “Jivva” is derived from Sanskrit word “Jiva” meaning soul or life force. It emphasizes to focus on nurturing the inner self within each person. The “Three Stones” likely symbolizes balance, calmness and stability where a journey each stone represents a stage in personal well-being, mindfulness and the practice of meditation. The choice of “Green” as the logo background represents growth, renewal and the natural world reinforces the spa commitment to focus on holistic wellness and using natural elements in each treatment.

Sunjivva is a sanctuary where tradition meets innovation, offering a unique blend of treatments designed to rejuvenate both body and soul. Our philosophy is rooted in the belief that true wellness comes from harmonizing ancient wisdom with modern advancements and inspired by local tradition for healing practices, offering a holistic approach to beauty and wellness.

The spa is designed to reflect the tranquil and beauty of its location and of the hotel, so no two are alike. We deliver outstanding and personalized experiences that restore balance and energy. Simply being here – away from the chaos of everyday life – relaxes our guests and starts them on their energy journey.

Our spa experiences combine authentic and effective treatments with a place for you to spend time alone, with family and kids or friends. Using indigenous ingredients and time-honored tradition to create authentic wellness experience.

All are designed to stir our passion for living with abundant energy.
