

Hotel Indigo Photography Policy

While we are delighted to have you as our guest, please note that all professional or staged photography in public spaces requires prior approval. To ensure a positive experience for all guests, we kindly ask that you schedule any photography sessions in advance with the Director of Sales.

Unauthorized photography, even by hotel guests, is not permitted, and guests without written approval may be asked to stop taking photos.

Requests are approved based on hotel occupancy and other scheduled events. Some groups have reserved event spaces or booked a room block with us, and their plans may include photography that requires designated space. To accommodate these commitments, photography requests may be limited or denied to ensure all guests have a seamless experience.

For inquiries, please contact tjohnson@nightcapmanagement.com.
Day-of requests will not be honored.

Hotel guests and bar patrons are welcome to take personal photos on their phones, as long as they do not block walkways or disrupt the experience of others.

Outside visitors who are not hotel guests or bar patrons are not allowed to take photos inside the hotel, whether on a phone or a camera. This includes, but is not limited to: family portraits, graduation photos, pre-event photos, engagement sessions, maternity shoots, prom photos, and professional headshots.

We appreciate your cooperation in maintaining a welcoming and enjoyable atmosphere for all our guests.
