THE PERFECT PAIRING

SOLEIL VERT

Soleil Vert is a green sencha tea from Japan. The word 'sencha' means 'strength tea' and is used without grinding the tea leaves. An oil of blood orange has been added to this tea in combination with orange peel. A fresh infusion with pleasant spicy fruity notes.

THE NOIR EARL GREY

The Earl Grey is a bold black tea with a bright and refreshing citrus twist. The citrusy and floral tones will be coming from the bergamot. The lingering essence of the bergamot and the citrus twist can cut through the richness of various ingredients, that will create a harmonious balance.

ROOIBOS CEDERBERG

This is a mix of aromatic spices such as cinnamon, cardamom and clove, but still a warm and comforting tea. The Rooibos Chai has a touch of natural sweetness making it a soothing mélange.

DARJEELING

A beautiful pure black tea that grows in the Indian tea district Darjeeling, at the foot of the Himalayas on the border of Nepal. Darjeeling is known among connoisseurs as the champagne of tea. This tea has a spicy character and light notes of almonds and ripe fruit such as peach.
