HEALTHY EATING

Your body relies on a constant supply of energy to function well and after sleeping for 6 to 10 hours, breaking the fast provides a boost of energy in the form of food. Breakfast is essential in providing your body with vital nourishment for the day ahead and kick start the body's metabolism, digestion and the brain into action.

Eating breakfast has been proven to improve concentration, mental performance, memory and mood, as well as in maintaining long term weight loss and reducing the risk of obesity and insulin resistance.

A good breakfast includes complex carbohydrates, which are slow to release energy and provide vitamins, minerals and fibre.

SUSTAINABLE: IHG is committed to supporting local business and reducing our carbon footprint. We are therefore partnering with local farmers to introduce fresh and seasonal ingredients to our menus. We are proud to present exciting new dishes, featuring produce that captures the very best of Zambia's organic, fresh and local produce.

Kamikaze K195
A combination of vodka, triple sec, and lime juice is guaranteed to get the party started. Pace yourself - these shooters are strong!

Springbokkie K195
It is a very patriotic drink, not only because a springbokkie reflects the gold-and-green of South Africa national rugby team, but also because Amarula is the world's second best-selling cream liqueur.

B52 K210
This shot is a subtle blend of coffee, orange, cream, and whiskey flavors ....
As with most shots, drinkers usually toss back a B52 quickly, so they get the flavors of all three layers
in one taste.

C-29 K195
C-29 is the chemical symbol for copper. The different layers represent the different colors copper has from copper ore to its extraction!

Brain Hemorrhage K195
This oddly named, yet super sweet shooter combines Peach Schnapps, Irish cream, and grenadine, and may affect your ability to think straight.
