# CRAFTING COFFEE STORIES TOGETHER

The heritage of coffee grown worldwide can be traced back centuries to the ancient coffee forests on the Ethiopian plateau. Legend has it that the goat herder Kaldi was the first to discover the potential of these beloved beans.

According to the story, Kaldi stumbled upon coffee after noticing that his goats became incredibly energetic after eating berries from a certain tree, causing them to stay awake throughout the night.

Kaldi shared his discovery with the abbot of the local monastery, who created a drink with the berries and found that it kept him alert during the long hours of evening prayer. The abbot then shared his findings with the other monks at the monastery, causing knowledge of the energizing berries to spread.
