LINK SUSTAINABILITY WITH A HEART

WATER CONSERVATION AND SAFETY

We are committed to minimizing water consumption in all areas of the resort through the combined efforts of guests, team members and our local partners resulting in a reduction of water usage of 23% in 2022 vs 2019.

We have also adopted the WHO guidelines for drinking-water quality and have ensured that Water Safety Plans are being implemented and effective and that national standards are being met by installing a cutting-edge water treatment system.

CARBON REDUCTION

Among our recent carbon-reduction initiatives was switching to renewable energy sources by installing a solar-powered water heater which allows us to cover 20% of our hot water needs with solar energy, as well as lowering the carbon intensity of operations by reducing the amount of energy that is used for different processes and activities, from cleaning and cooking to laundry and landscaping.

For appliances such as dishwashers, refrigerators, washing machines, dryers, and ice machines, we are fully Energy Star-standard compliant.

ENERGY SAVING INITIATIVES

We make it easier for you to become an even more environmentally responsible traveler by taking a pledge to reduce our energy consumption by 6% by 2025.

To achieve that, we replaced all incandescent bulbs in the back of the house, public spaces, and guest rooms with LEDs which use 75% less energy, and last much longer, than incandescent lighting; installed occupancy sensors in the offices as part of our advanced smart energy management systems that utilize sensors to detect when a room is empty; and connected all guestroom master switchers to the hotel's building management system to facilitate digital monitoring and reduce energy usage.

PLASTIC REPLACEMENT

Instead of using single-use plastic for our operational needs, we found eco-friendly alternatives made from recycled paper, rice straws, and wood and have been working with local manufacturers to produce packaging, room keys, cocktail straws, and other items used in restaurants and guest rooms responsibly. Our bathroom amenities come in refillable containers and are made with natural, green ingredients, and are kind to the skin and to nature.

JOIN US IN GIVING BACK

Here at InterContinental Phu Quoc, giving back to the community and contributing our support have always been our core values which we take pride in. Join InterContinental Phu Quoc in giving back to inspire future stars!

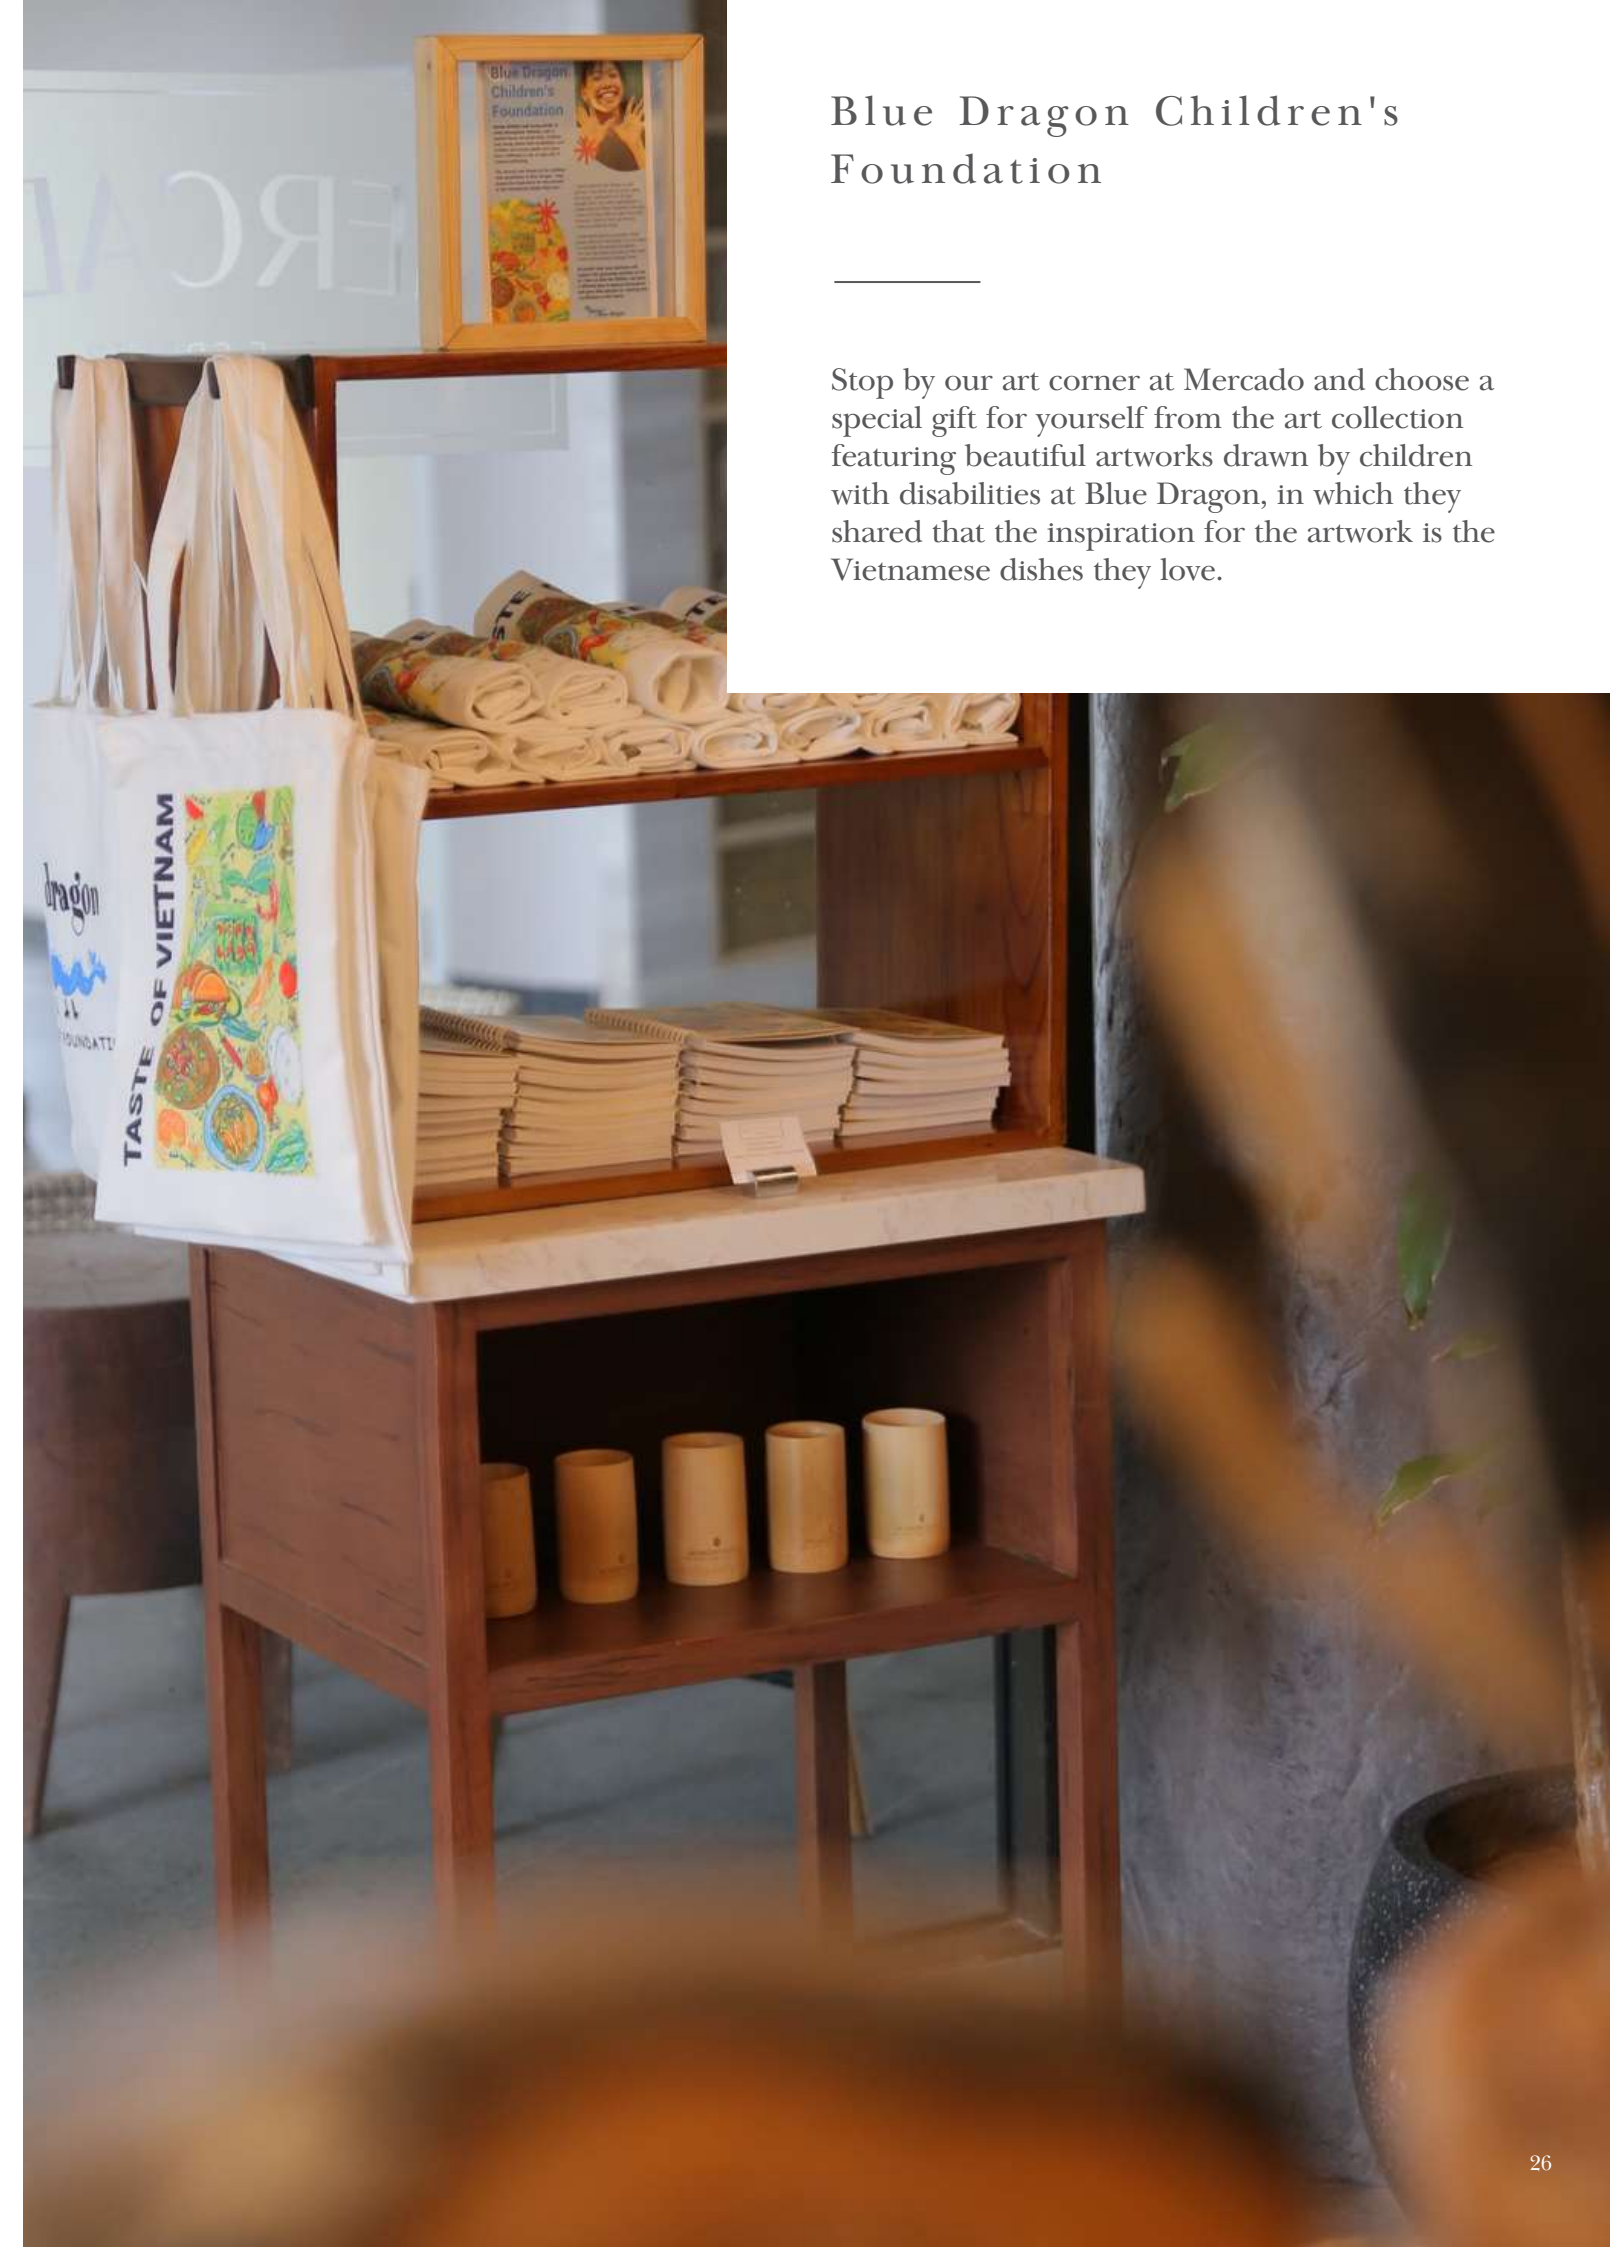

Toki Toki Vietnam

Spend your meaningful day with a fun-filled agenda partnering with Toki Toki Vietnam, joining countless activities including cooking classes, handicrafts workshops, going for a trip outside, visiting local attractions, doing sports exercises, and doing environmental cleanings. Altogether focus on building up better living conditions and supporting the underprivileged kids on the island.

Blue Dragon Children's Foundation

Stop by our art corner at Mercado and choose a special gift for yourself from the art collection featuring beautiful artworks drawn by children with disabilities at Blue Dragon, in which they shared that the inspiration for the artwork is the Vietnamese dishes they love.
