EVENING COCKTAILS

A fantastic selection of canapés and cocktails are served each evening at the Club InterContinental Lounge. Our experienced bartenders use carefully selected local, seasonal, and international ingredients to craft tempting creations perfect for savoring before a night on the town or dinner at the hotel. (5:30 p.m.~7:30 p.m.)

RESTAURANTS AND BAR

THE SCORE DINING

MELODIA ITALIAN GRILL

The expert culinary team here artfully showcases grilled Italian specialties, crafting exquisite dishes in front of your very eyes in our dynamic open kitchen. The menu is composed around themes of seasonality and time, and the dishes themselves are characterized by moving presentations and textures that flow like music. The courses play like a song, with one melody leading into another, creating an upbeat mood for wine tastings and social gatherings.

CHINA SHADOW

China Shadow perfectly complements Rhythmos and Melodia, connecting the views of Tokyo below with the atrium within, mirroring the harmony of music's separate elements. Here techniques and flavors dating back four thousand years come together to create spectacular aromas, tastes, colors, and textures to be experienced by all five senses. New ingredients find harmony with these age-old recipes and embody the restaurant's theme of "new journeys and new discoveries." Enjoy delicate dim sum, exquisite wine pairings, and imperial dining in this beautiful space.

CHINA SHADOW
HARMONIA

KAZANE TEPPANYAKI

In the center of the atrium, Kazane Teppanyaki connects Rhythmos and Melodia. Rounding out the musical elements of rhythm, melody, and harmony, the timbre of the sizzling teppans and the dynamic sounds and scents of our cooking stations add warmth and depth. You'll discover elaborate dishes served in a varied tempo guided by the Japanese concepts of wabi-sabi and traditional music Gagaku's jo-ha-kyu form, which requires a clear beginning, middle, and pinnacle to each meal.

RHYTHMOS CAFE AND BAR

Rhythmos Cafe and Bar is your entrance to the world of The Score Dining. The design is inspired by rhythm, one of the four elements of music that provides structure to the composition. The menu here is like a musical arrangement, balancing the fast beats of bold, sharp flavors with slower, milder tempos. Located on the 26th floor, beneath a magnificent 27-meter-high atrium, the lively atmosphere and colorful decor are perfect for catching up with friends, meeting colleagues, or enjoying a drink before exploring Tokyo's vibrant nightlife.
