OUR PARTNERS

ISHGA

ishga is derived from the Gaelic word for water. Their products have been developed in the Outer Hebrides using the highest quality and purest Scottish seaweed combined with water from a natural spring situated on the beautiful Isle of Lewis. Seaweed has been used for centuries for its natural healing and therapeutic properties and contains a high content of vitamins, minerals and powerful natural antioxidants, which are considered essential for maintaining glowing skin; while recent scientific research shows the seaweed extract used in ishga preserves the skin's natural collagen. The mineral rich seaweed extract is carefully blended with cucumber extract, macadamia, jojoba, aloe vera and lemon peel so that your ishga treatment will detoxify, nourish, firm and hydrate the skin.

OSKIA

OSKIA's award-winning formulas are a unique blend of easily absorbed nutrients and actives proven to give you a beautiful glowing complexion. Working on a cellular level, OSKIA's products use patented technology to combine vitamins, minerals, proteins and omegas to boost your cells' activity leading to healthier, happier skin that truly glows from within. Each indulgent spa treatment with OSKIA is tailored to you. Combining traditional practices such as acupressure, specialist natural face therapy massage, reflex and lymph drainage with modern AHA and BHA exfoliation, your next OSKIA treatment will leave your skin, body, and mind in utter bliss. Prepare to be soothed, nourished and restored with a renewed sense of wellbeing.

SWELL

We've joined forces with award-winning producer Brian D'Souza to create the UK's first Sound Wellness Room, a unique immersive experience which harness the therapeutic nature of sound for the ultimate relaxation. Music Psychology graduate and Sound Designer, Brian spent two years developing a new methodology which brings together biophilia, music composition and sound therapy to create the Swell Room, Spa at Charlotte Square's dedicated sound treatment offering. Guests will be able to immerse themselves in the wild, natural sounds of the world on a bespoke reclining armchair, which features a vibroacoustic delivery system allowing guests to not only be able to hear the sound, but feel it too, promoting positive biochemical responses that bring equilibrium to the nervous system; a revolutionary approach to wellness, exclusively at Spa at Charlotte Square.
