## INTRODUCTION

At InterContinental Perth City Centre, we specialise in creating incredible occasions. We understand that when it comes to orchestrating and commemorating your wedding, it is a deeply personal experience.

Our Event Planning team will leverage their wealth of experience, industry connections, and creative expertise to craft the ideal setting for your dream day. Above all else, we strive to ensure that it reflects the unique essence of the happy couple.

This means our attention will go beyond just a beautiful backdrop. It will be the clink of glasses that raise a toast, the scent of flowers in the room and the presentation of food and background music. Together, these elements bring layers upon layers of details that will add magic to the moment, making your wedding an unforgettable day.

## EVENT SPACES

Our collection of event space includes the unique spaces within The Gallery Meeting Suites with the option to access a private alfresco terrace overlooking palm trees and heritage buildings along the King Street Precinct.

The Gallery Meeting Suites is a sophisticated and dynamic space with the flexibility to be transformed to suit the style of almost any event. Centered around a Chef's Pantry where refreshments and canapés can be presented, each room is off the central lounge area. This thoughtfully designed space also includes outdoor terrace offering exclusivity for your special day.
